HOLISTIC & INTEGRATIVE NURSING PROGRAMS

4 Programs:

ONLINE:
1. Holistic Nursing Certificate
2. RN-to-BSN (Holistic Nursing)
3. Master of Science in Nursing (Holistic Nursing)

HYBRID:
4. NEW! BS In Nursing (Direct Entry)

Coursework online / Clinical practica in your area (assistance provided)
Combination of live online classes and self-paced assignments
Financial aid available for those who qualify
2022 AHNA Excellence in Holistic Nursing Education Award for the RN-BSN program
Our curricula are guided by the core values, scope, and standards of nursing practice of the:

- American Nurses Association (ANA)
- National League for Nursing (NLN)
- American Academy for Colleges of Nursing (AACN) 2021 Essentials
- Accreditation Commission for Education in Nursing (ACEN)
- American Holistic Nurses Association (AHNA)
- Association of Professional Development (ANPD) (for the MSN)
- American Nurses Credentialing Center (ANCC)
- The American Holistic Nurses Credentialing Center (AHNCC)
WHY HOLISTIC & INTEGRATIVE NURSING?
Holistic nursing focuses on healing the whole person, recognizing the interrelationship of the bio–psychosocial-cultural-spiritual-energetic-environmental dimensions of each human being.

Holistic nursing emphasizes protecting and promoting mental, spiritual, and emotional wellness, while supporting people seeking to find purpose, peace, and harmony.

Pacific College’s holistic and integrative nursing programs aim to reconnect you with your purpose for being a nurse, and inspire you to promote much needed shifts in healthcare for the health and well-being of all!

Your patients and their loved ones are demanding these changes!

Graduating from Pacific College’s nursing programs will help you partner with individuals, families, colleagues, organizations, and communities to promote healing while honoring the individual’s subjective experience about health and illness.

Nursing has always been an art and science emanating from a caring-healing framework. Today, healthcare is being compelled to shift from a reactive, disease-oriented paradigm to one that honors traditional medicine, as well as integrative healing modalities, wellness, and prevention.

Experience personal and professional growth while leading a deeply transformative movement!

HOLISTIC-FOCUSED SINCE 1986
As a leader in alternative and complementary and integrative healthcare education since 1986, PCHS, formerly known as Pacific College of Oriental Medicine (PCOM), has a long history of emphasizing holism, herbology, and overall patient wellness.

PRESTIGIOUS ACCREDITATION
PCHS’s is the largest holistic nursing program that is credentialed by the college’s prestigious Western Association of Schools and Colleges’ Senior College and University Commission (WASC’sWSCUC), which also counts Stanford, the University of California (UC), and many more as its member institutions.

INNOVATIVE CURRICULUM
Including psychoneuroimmunology, entrepreneurship, authentic leadership, careful nurturing of our student/faculty learning community, caring circles, pop-up seminars, and pre-start orientation to support your successful transition to online learning.

NEW! HYBRID BS IN NURSING
available at the New York campus (direct entry)
FLEXIBLE ONLINE COURSES

The didactic coursework is specifically designed for busy professionals like you, and offered online using a combination of live online classes and self-paced assignments.

TARGETED CAREER OUTCOMES

Pacific College’s Holistic Nursing programs prepare you to thrive and lead as holistic nurses in any professional setting, including private practice. We ground you in the evidence-based approach of influencing care, expanding program and interprofessional development, improving work environments, and relationship-centered care.

CLINICAL PRACTICA OPTIONS

The clinical practica can be done in your own community, or in one of Pacific College’s busy integrative healthcare clinics in San Diego or New York.

UNIQUE SELECTION OF ELECTIVES

Enjoy Pacific College’s broad catalog of electives, from tui na bodywork to medical cannabis, health coaching, healthcare disparities or nutrition, foundations of East Asian medicine, and many more.
✓ The only holistic nursing programs in the US credentialed under the prestigious WSCUC regional accreditation.*

✓ The first graduate degree for nurse coaches (MSN)!

✓ One of only 17 holistic nursing programs in the country endorsed by AHNCC!*

✓ Winner of the 2022 AHNA Excellence in Nursing Education (RN-to-BSN)!

✓ State of the art clinical skills lab at the New York campus (BS in Nursing program)

(*) See www.pacificcollege.edu/about/accreditation
FOUR PROGRAM OPTIONS
1. HOLISTIC NURSING CERTIFICATE PROGRAM

12.5 credits

Online coursework. Clinical practica are done in your own locale/community.

Complete in as few as TWO TERMS!

NEW: BSN No Longer Required!*

All the didactic courses in the certificate program are transferrable into the PCHS Holistic RN-to-BSN program as long as a grade of B- or higher is achieved!

This program is AHNCC endorsed. Upon completion, you will be prepared and eligible to take the AHNCC certification exam to become a board-certified holistic nurse. Students holding a BSN upon Holistic Nursing Certificate completion will be prepared to sit for the HNB-BC certification exam, while students holding an ASN will be prepared to sit for the HN-BC exam. Learn more here!

*As of 5/1/2023
Eager to bring more holistic and relationship-centered perspectives to conventional healthcare, and already have your bachelor’s in nursing?

THIS HOLISTIC NURSING CERTIFICATE PROGRAM IS FOR YOU IF:

• You recognize a need for more balance and resilience in your nursing practice.
• You want to deepen your understanding of health and healing.
• You desire to reconnect with your calling.
• You aim to educate yourself about integrative healthcare and how to bridge the gap with Western healthcare.
• You long to be inspired and expand beyond your current perceived limitations in your practice.

PROGRAM OUTLINE:

• The Nurse as Facilitator of Healing - Role: 4.5 Credits
• The Nurse as Facilitator of Healing - Modalities: 3 Credits
• Psychoneuroimmunology: 3 Credits
• Clinical Practicum: 2 Credits

PROGRAM OUTCOMES:

• Practice nursing from an informed, caring-healing holistic framework.
• Provide humanistic, holistic, high-quality care to individuals and families that reflects an understanding of the human condition and nursing management across the health-illness continuum, across the lifespan, and in all healthcare settings.
• Empower patients/clients and families by teaching self-care practice for a healthier lifestyle.
• Guide individuals and families to manage stress and prevent disease by improving health and well-being.
• Collaborate with all constituencies in the healthcare process.
• Integrate reflection and self-care into your own life.
2. RN-TO-BSN PROGRAM (HOLISTIC NURSING)

- **42 to 60 credits** (based on transcript evaluation).

- **Online coursework.** Clinical practica are done in your own locale/community.

- Students learn both holistic AND allopathic approaches to healthcare.

- **Can be completed in 4 terms** as a full-time student, or 7-9 terms as a part-time student.

- Accredited by the **Accreditation Commission for Education in Nursing (ACEN).**

- Recipient of the “**2022 Excellence in Holistic Nursing Education**” award.

- This program is AHNCC endorsed. Upon completion, you will be prepared and eligible to take the AHNCC certification exam to become a board-certified holistic nurse by sitting for the HNB-BC certification exam. Learn more here!
The curriculum emphasizes self-care, health, wellness, and disease prevention; relationship-centered approaches; research and evidence-informed practice; ethics; diversity, equity & inclusion; advocacy; and authentic leadership within the profession and beyond.

This Bachelor Degree Enables Graduates To:

• Empower patients/clients/families by teaching whole-person healing and self-care practices for a healthier lifestyle.
• Assist individuals and families to manage stress, make healthy changes, and prevent disease by improving health and well-being.
• Guide individuals and families between the conventional allopathic medical system and integrative therapies and systems.
• Incorporate holistic integrative modalities with other nursing interventions.
• Work on integrated health teams.
• Practice in a variety of settings.
• Deepen reflective nursing practice and self-care into personal and professional life.

Coursework Includes:

• Theoretical Foundations of Holistic Nursing
• The Nurse as Facilitator of Healing: Role and Modalities
• Community Health Nursing/Population-Focused Healthcare
• Leadership in the Delivery of Healthcare
• Research in Nursing
• Issues and Trends
• Psychoneuroimmunology
• Plus a variety of support courses and electives to choose from, including Medical Cannabis courses!
3. MASTER OF SCIENCE IN NURSING PROGRAM (MSN)

- **40 credits (22 core + 18 specialized)**

- Holistic, relationship-centered and complexity-inspired blueprint across the program

- **Innovative curriculum** including psychoneuroimmunology, entrepreneurship, authentic leadership, careful nurturing of our student/faculty learning community, caring circles, pop-up seminars, nursing orientation to support successful transition to online learning

- **Online coursework.** Clinical practica are done in your own locale/community

- Pacific College of Health and Science is **accredited** by WSCUC

- Most recent accreditation decision made by the ACEN Board of Commissioners is initial accreditation
THE MASTER OF SCIENCE IN NURSING PROGRAM (MSN) PREPARES GRADUATES FOR:

Board Certification

Upon completion, you will be able to use the holistic MSN coursework to sit for the appropriate holistic nurse, advanced holistic nurse, or nurse coach board certification exams offered through the American Holistic Nurses Credentialing Corporation (AHNCC), as long as you meet all the other application eligibility criteria. With the appropriate number of practice hours, you may also be able to sit for the board certification exams for the Nurse Professional Development Specialist. The prerequisite for entering the MSN program is a bachelor’s degree in nursing (BSN).

What you can do upon graduation is limited only by your imagination. We encourage you to think big, think innovative, think local or global, and dream your practice into existence!
HOSPITALS OR OTHER HEALTHCARE SETTINGS
Influence traditional or non-traditional healthcare settings by focusing on evidence-based approaches to caring and healing, program development, thriving work environments, relationship-centered care, extraordinary patient/family care, interprofessional development, and the importance of self-care.

HEALTHCARE SYSTEMS
Inspire the cultural evolution of healthcare systems, the well-being of all people, and the planet with a focus on coaching, education, empowerment, and wellness.

PRIVATE PRACTICE
Support and empower individuals, groups or organizations to shift internal and external cultures towards wellness and thriving. Work in your own office or consult around the world. Think big!
Graduates of the Pacific College of Health and Science MSN nursing program will be able to:

1. Generate a personal and professional philosophy about the advanced holistic nurse role that reflects a caring-healing framework with **respect for spirituality, diversity, equity, inclusion, and social justice**.

2. Demonstrate **critical thinking, reflective practice, creative problem solving, and clinical judgment** based upon the synthesis of evidence from nursing and other sciences, along with the wisdom from multiple ways of knowing.

3. Model advanced holistic nursing role competencies within **educational, coaching, and leadership practice environments**.

4. **Evaluate evidence-based holistic education and coaching outcomes** as related to culture, diversity, equity, and inclusion across the healthcare continuum.

5. **Co-create caring-healing environments and policy change** through transformational human-centered leadership to influence cultural shifts in practice and educational settings.
6. **Model interprofessional collaboration and holistic communication** within diverse healthcare teams, organizations, systems, and populations.

7. Integrate knowledge of holistic professional nursing scope and standards to **maintain ethical and legal practices** within the roles of educator and coach.

8. Demonstrate adherence to **quality and safety standards** using principles of relationship-centered care, health and information technologies, and informatics.

9. **Utilize effective holistic relationship-centered communication skills** via written, verbal, non-verbal, and technological modes.

10. **Model professional commitment towards healing** through self-reflection, self-care, and lifelong learning.

Students may defer current Title IV loans while enrolled in the program.

(*) The cost for textbooks and supplies is approximate, based on current requirements and prices. Students are not required to purchase textbooks and supplies from the school. Standard Fees (apply to all students).

SCHEDULE AND COURSE DELIVERY

The didactic classes are offered online, using a combination of live classes and asynchronous coursework with defined outcomes. Live classes are delivered in real time, with audio and video connection to faculty and fellow students. They are recorded in case you have to miss them.

The clinical portion of the BS in Nursing program is on-campus, at PCHS’ beautiful lower Manhattan facility, New York.

Each program includes mandatory clinical practica. All practica are done in the student’s locale. Faculty and staff support the process of each student finding their own preceptor.

We work hard to create a safe teaching/learning environment and strengthen important collegial relationships.

The connection among students is comparable to that of on-site classes with the added benefit of attending from the comfort and convenience of your home.

A full-time student can complete the certificate program in as few as two semesters, the RN-to-BSN in four, the BS in Nursing in five, and the MSN in seven.
PACIFIC COLLEGE’S ONLINE EDUCATION EXPERIENCE
Pacific College of Health and Science has been at the forefront of online education in each of the professions it represents. Forgoing what at the time was standard online education, i.e., PowerPoint slides, reading assignments and online forums (in other words, boring and uninspiring), Pacific College embraced live, synchronous and asynchronous, online delivery to replicate the closeness and camaraderie of the on-site educational experience, all while providing the convenience of online education. **Our teaching methodologies are innovative, experiential, co-creative, effective, and engaging.** Students and faculty see and hear each other, share their thoughts and assignments, consider real-world issues, and work in groups in real time from the comfort of their home or office.

Pacific College can achieve such outcomes because its online team includes not only the widest variety of subject matter experts, but also **specialists in online instructional design who work closely with faculty members to ensure the best online educational experience.**

---

**All classes at Pacific College apply the most relevant and current tenets of adult education theory:**

1. Adult learners are self-motivated, goal-driven, self-directed and accountable in learning.
2. Adult life experiences contribute to learning and enrich the classroom experience.
3. Adults learn best by applying the information they need to learn.
4. Adults need to see the relevance of the knowledge being delivered.

---

**All students have access to the college’s extensive electronic library resources,** including the Cochrane Library of systematic reviews, the ProQuest Ebooks Central and Nursing and Allied Health databases, plus AltHealth Watch, CINAHL, Medline with full text, and a significant selection of ejournals through EBSCO Host. All these resources can be accessed through the search box at the top of the library’s web page. Articles that are not available as full text can be requested through InterLibrary Loan (ILL).
Pacific College’s undergraduate and graduate holistic nursing programs are innovative, complexity-inspired, and geared toward the transformation of nurse leaders in nursing education, nursing practice, and healthcare systems. Our prestigious faculty and program advisors are renowned thought leaders in the field of holistic nursing.
MEET YOUR FACULTY!

Pacific College has a long tradition of recruiting the most highly credentialed professionals. Your Holistic Nursing faculty members are no exception. Each one of them is an expert and active professional in her or his field.

Dr. Patrick Robinson, PHD, ACRN, CNE, RN, ANEF, FAAN
Vice President of Nursing

Dr. Patrick Robinson currently serves as the Vice President of Nursing for Pacific College of Health and Science in New York City. He obtained his bachelor’s and master’s in nursing from Indiana University and holds a PhD in Nursing Science from Loyola University Chicago.

Dr. Caroline Ortiz, PhD, MPH, RN, NC-BC
Associate Professor

With over 24 years of nursing experience, Ortiz’s practice combines holistic health approaches with conventional medical care. She is part of the faculty of the Pacific College of Health and Science's Holistic Nursing programs and is a PhD candidate investigating the traditional healing practices of Mexican-American women.

Read More

Sondra Rivera, MSN, RN
Clinical Placement Coordinator

Sondra has worked as a nurse since 1992, and taught nursing since 2005. She received her associate degree from NYC College of Technology, her BSN and MSN-Ed from University of Phoenix-Online, and continued on through AAS-RN, LPN, and 2- and 4-year BSN-RN programs. In addition to teaching at Pacific, she works with NYU-Langone to provide health screenings and education and flu clinics to the public.

Read More
Dr. Christine Gilchrist, PHD, MPH, RN, NC-BC
Core Faculty
Christine is an integrative public health nurse who uses a whole person/whole system approach to caring for others. With more than two decades of experience as a registered nurse, she has worked as a clinician, administrator, and supervisor in college student health and counseling.
Read More

Dr. Corinne Kohrherr, MSN, FNP-BC, DAcCHM, LAc
Core Faculty
Corinne has been providing holistic healthcare for over 15 years. She began her career in private practice as an acupuncturist and herbalist and currently sees patients via telemedicine as a Family Nurse Practitioner licensed in 35 states.
Read More

Dr. Debbie Conner, PhD, MSN, ANP/FNP-BC, FAANP
Core Faculty
Debbie Conner is an accomplished nurse educator, researcher, and holistic family nurse practitioner. With a profound belief in the inherent healing potential within each of us, Dr. Conner champions the idea that by equipping our bodies with knowledge, tools, love, and encouragement, we can often guide ourselves toward healing.

MISSION

Pacific College improves lives by educating and inspiring compassionate, skilled leaders of traditional medicine and integrative health sciences.

CORE VALUE STATEMENT & CORE VALUES

All members of the Pacific College community embody the intention of improving lives exponentially by supporting health and well-being through our daily actions. We lead by example and by practicing the values of:

INTEGRITY • MINDFULNESS

COMPASSION • CRITICAL THINKING

COLLABORATION • EDUCATION
VISION

Pacific College is the recognized leader in delivering traditional medicine and integrative health science education to practitioners and the public.

Pacific College is a catalyst for the adoption and expansion of traditional medicine and integrative health science principles, practices, and research, empowering individuals to gain and maintain health and enjoy life.

Pacific College is contributing to the transformation of the structure and economics of healthcare by bringing education and integrative health science to where people live, learn, and play.
