# WELCOME!

### WELCOME TO THE 35TH ANNIVERSARY OF PACIFIC SYMPOSIUM

As we develop the curriculum for the Symposium each year, our selected speakers often ask me: what is the theme? is there a theme to guide my topic selection? With the exception of a rare year or two in the past when we had a theme, like the memorable sexuality and Chinese medicine (prudish CEU regulators had a field day with that), I have universally given the following advice to speakers: give me the topic you are most interested in, the area you are most involved with, and it will provide the basis for the best presentation and most successful Symposium.

Only rarely have I suggested alternatives, when the topic seemed too abstract to be successfully executed in the allotted time (Ted Kaptchuk and a few others being exceptions to that rule), and remembering that our audience most often prefers clinically actionable information. Even when a speaker's topic closely resembled another's, the perspective or approach would vary enough to make the opportunity for comparison valuable and interesting. I often encouraged this.

My successor in this enjoyable annual job, Cynthia Neipris, has done a spectacular job of choosing this year's speakers and discovering the subjects that best reflect their knowledge and skills. With the skillful and expert Symposium Team, including Operations Manager Rob Nadeau, a one-man band with a bow-tie, PCHS Vice President of Marketing Nathalie Turotte and her team, the wizard IT folks, and the many dedicated staff and volunteers who make the magic happen, this promises to be a great year.

We are thrilled to welcome back three speakers who were also at the first Symposium in 1989: Kiiko Matsumoto, Misha Cohen, and Whitfield Reaves.

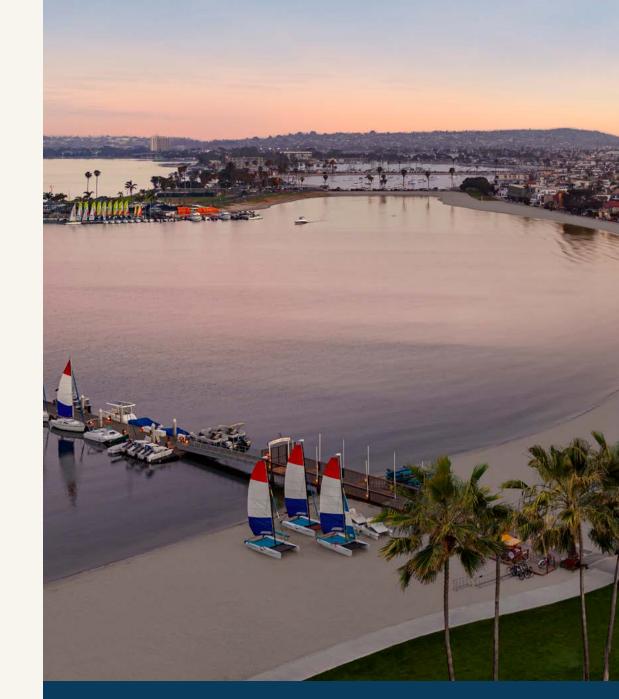

Other returning speakers include Shellie Goldstein, Deirdre Courtney, Dustin Dillberg, Arya Nielsen, Claudia Citkovitz, Felice Dunas, Holly Guzman, Rick Gold, and Yuval Ron.

It's a pleasure to welcome for the first time Heidi Lovie, CT Holman, Eileen Han, Randine Lewis, Bridget Shea, Michelle Gellis, David Cohen, and Shana Chivon Green.

We hope you enjoy it!

Jack Miller

Board of Trustees Chair

# SAVE THE DATE

> Looking forward to seeing you again! Symposium@PacificCollege.edu

### **GENERAL INFORMATION**

This section will help you get the most out of your conference experience. If you have any questions, please do not hesitate to ask a Symposium team member. We are here to help make sure this event is memorable for everyone

### QR CODES AND BADGES FOR ENTRANCE AND CEUS

In order to enter lecture halls, you must wear your badge. We are no longer scanning badges to take attendance however. Attendees will sign in by scanning a QR code that brings you to a digital sign-in sheet. In most cases, after pointing your phone's camera at the QR code, a button will appear on the screen. Tapping the button will open a link to the form in your default browser. The QR codes will be accessible in the following ways:

- Displayed on large posters near the entrance of the lecture hall.
- Displayed on the projector screen(s) until the session begins.
- Directly from the room attendants.
- At the registration desk while the session is in progress.

In order to comply with continuing education rules from outside agencies, the digital sign-in sheets will only be available from 20 minutes before each session starts until 30 minutes after it begins. If you have any difficulty with the process, please seek out a room attendant near one of the doors. They will be able to help you complete the sign-in. If you arrive late and miss your signin (QR code) opportunity you can go to the registration desk to complete the sign-in. Please be aware that both NCCAOM and the California Acupuncture Board (CAB) may void your credit if you are audited and

it is determined that you were not

present in a session for a sufficient

amount of time to be eligible for the units.

### **LECTURES AND WORKSHOPS**

All sessions are available on a first-come, first-served basis. Arrive early to see your favorite speaker or topic. Space in some workshops may be limited by the room size or the hands-on nature of the presentation. If you encounter a "Workshop Closed" sign, please move on to your next choice. This policy helps to make everyone's experience more enjoyable by avoiding overcrowded workshops. If you miss a lecture, a conference audio package is available for purchase for \$99. See additional details in this program.

# ATTENDANCE VERIFICATION FORMS, COURSE EVALUATIONS, CERTIFICATES

You must complete the Attendance Verification Form to receive CEU/PDA credit for the sessions you attend. The form is completed on the Symposium website.

- Please visit: pacificcollege.edu/symposium/
- 2. Log into your account using the same credentials you used when you registered.
- 3. From your account dashboard, select Verification.
- 4. After verifying a course, you will see a message directing you to the next step, which is course evaluation.
- 5. After completing the Attendance Verification forms and course surveys, our system will send your information directly to NCCAOM and it should appear within your NCCAOM portal as well as being emailed to you. Your certificate for CAB will be accessible through your account on the Symposium website.

### **IMPORTANT NOTES**

- Certificates will only be available to attendees who registered for a pass type that includes CEUs.
   Certificates are not available to those who purchased one of the student pass types.
- If you accidentally purchased an ineligible pass type, please go to the registration desk. A customer service specialist will be able to help you upgrade your status.
- For CAB, there is one downloadable certificate for each separate presentation.
- The downloadable certificates are not valid for NCCAOM PDAs.
- Completion data is sent directly to NCCAOM within two weeks of the event ending.
- You will receive a single NCCAOM certificate, covering all of the PDAs you acquired at the event, by email, and will also be able to access it directly from the NCCAOM portal if you are an active NCCAOM diplomate.

### **POST-SYMPOSIUM SURVEY**

Separate from individual course surveys, an online survey about the Symposium as a whole will be emailed to you after the conference ends.

# CONFERENCE RECORDINGS & FREE RECORDINGS OF PAST SYMPOSIUM TALKS

NOTE: Please respect the intellectual property of our speakers and Symposium by refraining from audio or video recording of any part of the Symposium. The conference audio price of \$99 is a limited time offer, available only to registered attendees of the Symposium while the event is in session.

To celebrate our 35th anniversary, if you purchase an audio package, you may also take home your pick of audio CDs of Pacific Symposium lectures from 2005-2015. See Audio Package purchase details later in this program.

Thank you for attending this year's Pacific Symposium. We hope you have a truly enjoyable and enlightening experience!

Sincerely,

Rob Nadeau, Pacific Symposium Operations Manager, and the Pacific Symposium Team

### **REGISTRATION DESK HOURS**

### <u>Thursday:</u>

7:00<sup>AM</sup>- 6:00<sup>PM</sup>

### **Friday-Sunday:**

8:00<sup>AM</sup> - 6:00<sup>PM</sup>

7:00<sup>PM</sup>-9:00<sup>PM</sup>

35<sup>™</sup> Anniversary Celebration

### **CONFERENCE DETAILS**

### **MEETING SPACE AND SEATING**

All seating is "first come, first served". All meeting spaces are locked while not in session and no items can be left in rooms to reserve a seat. For the afternoon workshops, the doors will open and seats will become available 20 minutes prior to the workshop start time. Plan accordingly and arrive early to lectures and workshops to secure a seat. Once a room is full and there are no seats remaining, please plan to go to another workshop location. No refunds will be granted based on no seats available to preferred courses.

### **PARKING**

Please note the following rates if you are planning to park at the Catamaran Hotel. Hotel Guest Parking: Self \$26 or \$32; Valet Non-Catamaran Hotel Guest: \$10 for the first hour, \$2 each additional 1/2 hour, with a daily maximum of \$35. Street parking is available. If you choose street parking, please note the street-sweeping signs posted in the area.

### **CEU/PDA HOURS**

Pacific Symposium provides up to 60 Continuing Education hours total.\* Schedule is subject to change without notice. Any changes made to the CEU/PDA totals will be updated on the website. Pacific College of Health and Science is approved by the California Acupuncture Board as Continuing Education Provider #100.

\*State or national regulations may limit the eligibility of some courses toward your recertification total. Please check with NCCAOM or your state board for current requirements.

### **RECORDING**

By registering for the Symposium, you

understand that lectures and presentations held within the Symposium venues may be video and/or audio recorded for internal, broadcast, non-broadcast, and promotional purposes. As an audience member, some of these recordings may contain your likeness and/or your voice. By your registration, you grant Pacific Symposium and

its affiliates the irrevocable right to record and use any recordings containing your likeness and/or your voice for internal, broadcast, non-broadcast, and promotional purposes. Change highlighted text to read: Recordings of the live-streamed classes from Symposium may be available to paid attendees for up to two weeks after the event. Availability varies based upon the preferences of the speaker. Note: In order to receive CEUs, you must have registered for and attended the live classes, either on-site or online.

### SPEAKER SLIDES + NOTES

In the interest of environmental friendliness and to facilitate guest convenience, slides from our Pacific Symposium speakers are now stored in your individual Symposium portal.

- 1. Please visit: pacificcollege.edu/symposium
- 2. Log into your account using the same credentials you used when you registered.
- 3. From your account dashboard, select Your Course Details.
- 4. If one or more handouts have been provided by the teacher, the download links will appear next to the session title.

Please note that print versions of slides and handouts will not be provided by Pacific Symposium, nor will we be able to print them for you at the registration table. However, the hotel has printers available if that is your preference.

### 'Ancient Formulae for the Modern Child'

11:10<sup>AM</sup>-12:00<sup>PM</sup> • Aviary

Yin Fire: Treating Earth for Inflammation, Thyroid and Auto-Immune Disorders by Heidi Lovie

Yin Fire is not just yin deficiency heat, but its own diagnosis with its own specific treatment strategies, and it is implicated in many modern day autoimmune, inflammation-related, and difficult-to-treat cases. If the practitioner does not begin with Earth in treating these complex cases, they can resort to perpetually chasing symptoms instead of addressing the situation as a whole.

1 CEU/PDA

Improving Connective Tissue Integrity and Lymphatic Drainage in the Face by Shellie Goldstein

Learn how to restore the health and appearance of the face by improving connective tissue function and stimulating lymphatic drainage via manual techniques, which will be demonstrated.

3 CEU/PDA

2:00<sup>PM</sup>-5:00<sup>PM</sup> PBoardroom

This hands-on workshop will include techniques of self-massage and acupressure, along with tui na and daoyin for treatment of syndomes and symptoms related to menopause, including pain, fatigue, sexual, urinary and pelvic changes, digestive complaints, sleep difficulties, mental health concerns, and more.

3 CEU/PDA

Hashimoto's Hypothyroid by Heidi Lovie

Join Dr. Heidi Lovie, leader of the Hashi Posse, to explore diagnostics, treatment options, and patient communication for success with Hashimoto's low thyroid, the world's most common auto-immune condition.

# Acupuncture malpractice insurance

protecting Acupuncturists for over **50 years** 

### the AAC difference

AAC is the largest and oldest provider of Acupuncture malpractice insurance. We know how to defend you when you need it. We have worked with thousands of practitioners just like you and tailor coverage to your specific needs. Let us show you how we can keep your practice best protected from everyday risks.

### we work for you

AAC has unparalleled experience defending and winning claims against Acupuncturists for the past 50 years and remain committed to fighting for you! AAC is the company that financially supports advocacy efforts, such as working with the World Health Organization on ICD-11 Traditional Medicine codes in order to further advance our profession and increase the financial benefits of services you offer.

### **CALL US FOR MORE INFO**

800.838.0383

### proactive

We want you to contact us when issues arise so we can be supportive all the way through. From malpractice allegations to board complaints, AAC's legal team and experts understand the Acupuncture profession and are dedicated to help you through the legal process.

### versatile

As with the individualized care you provide, we take the same approach of tailoring insurance coverage to meet your specific practice needs and exposure. Additionally, our policy is not location specific. We offer coverage across the United States, including all U.S. territories.

### protected

Based on our unique experience as the most established Acupuncture insurance provider, we always have a finger on the pulse of what's going on in today's practice environment. We have updated our policy and underwriting to offer a wider range of policy limits, supplemental coverage options, and programs, all in order to provide you with added layers of protection.

My Practice by Whitfield Reaves

\*Daylight Savings Time ends, turn clocks back 1 hour.

> Occam's Razor is one of the most useful (yet misunderstood) models

7:00<sup>AM</sup>- 7:50<sup>AM</sup>

with Dan Halpain

of problem solving in your toolbox.

Basically, its perspective is "keep it simple." Dr. Reaves will illustrate the use of this principle as it can be applied in musculoskeletal cases, making diagnosis and treatment more confident and effective. 1 CEU/PDA

### 9:55<sup>AM</sup>-10:45<sup>AM</sup> • Aviary

Current Research on Acupuncture Therapy for Acute Pain by Arya Nielsen

Arya Nielsen, PhD, is well known for her work as a researcher, teacher and writer on the subject of acupuncture instead of opioids. She was in large part responsible for the shift in requirements for hospitals accredited by the Joint Commission to consider and recommend non-pharmacological options for pain. Dr. Nielsen reviews the most recent evidence regarding treatment for acute pain.

1 CEU/PDA

### 

In this class, Felice Dunas will share, in a language your patients will understand, facts about sexual anatomy and physiology that can make a substantial difference in the ways your patients feel about themselves and their intimate lives.

### 1 CEU/PDA

Three Illusive Conditions in the Clinic: Scapular Neck Pain, Deltoid Shoulder Pain, and Medial Knee Pain

by Whitfield Reaves

Join Whitfield Reaves, who will drawn upon his over forty years of experience in this field, to share insight into how to treat three common conditions. Discover how to diagnose and treat rhomboid minor and levator scapulae dysfunction causing scapular neck pain, supraspinatous and infraspinatous dysfunction causing deltoid area pain, and the medial joint space of the knee and the pes anserine causing medial knee pain.

3 CEU/PDA

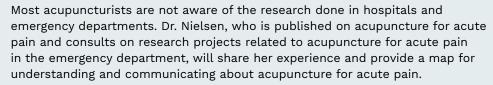

Acupuncture therapy for Acute Pain: Inpatient and Emergency Department

by Arya Nielsen

3 CEU/PDA

Hatred, Bigotry and Polarization: Chinese Medicine Health Concerns and **Approaches** 

by Felice Dunas

We see many patients who are affected by extreme emotions, either their own or those expressed by others. This class will explore Chinese medicine systems for understanding and altering human emotion to inspire greater balance, calm and harmony within society and the individual, and will also explore how your work can support patients in gaining a greater awareness of their hidden biases and toxic feelings.
